

**This document will show you how to get paid to search the Internet.**

**1. Where does the money come from?**

**Advertisers pay search engines (like google, yahoo, msn, ask) to put advertisements on their search pages. It is similar to the advertisements you see on the TV commercials. So search engines get paid for everytime you search on their website from the advertisers. MySearchFunds gets paid by search engines to send people to their search. Search engine pay a portion of the money they get from the advertisers to MySearchFunds, and MySearchFunds pays a portion of that to you, as you can't get paid directly by the search engines. MySearchFunds currently pays you to search on Google. But they will soon be adding other search engines as well.**

**2. How much do you get paid?**

**You get paid between \$0.03 and \$0.06 for every search you do, depending on where you are from, what you search for and other variables.**

**3. How does it work?**

**Sign up to MySearchFunds by clicking**

**<http://www.mysearchfunds.co.uk/apply001.asp?Friend=72093>. You should get an email with your password, which you use to login. The email usually goes to your »spam« folder, but if you can't find it there either, click <http://www.mysearchfunds.com/forgetpass.html> to request your password again.**

**Now check your email again (including the »spam« folder), and the email should be there. Now once you are logged in to MySearchFunds, you should see a message like this Click the link below to simply set your My Search Funds page.**

**You can go to this URL from any computer.**

**<http://www.mysearchfunds.com/myhomepage.asp?OrgID=XXXX> This is the link you should set as your homepage, and every time you search, do it from this url, and you will get paid. You must search from this url in order for MySearchFunds to record your searches and pay you!**

**The earnings are updated in 1 working day delays, which means you will see tomorrow the earnings for the searches you did today. On weekends the earnings are not updated, so the earnings from Friday, Saturday and Sunday, are usually updated on Monday. Same goes for holidays.**

**They will pay you to your PayPal account or directly to your Bank Account, depending on what you choose as your payment method. For you to get paid, you must accumulate atleast 20£ at the end of any month, which is about \$40. If you do not accumulate 20£ in a month, the earnings will be transferred to the next month. If you reach the payout, the money will be paid to you 45 days after the end of the month when you reached the payout. The 45 day delay is because MySearchFunds needs to wait for the search engine to pay them for the searches.**

**If you have any questions, you can contact me at [myfreeguitarlessons@yahoo.com](mailto:myfreeguitarlessons@yahoo.com) and I will be happy to answer. Happy earning!**
